

Surfance™ is a line of **surface enhancing products** that deliver hospital-grade cleanliness without the harshness of chlorine and typical detergents. Using proprietary technology, Surfance cleaners and treatments continue to work long after application, keeping surfaces soil and germ free.

CLEAN WITH JUST WATER

Water-based formulas are self-cleaning. After treatment, surfaces no longer require soaps or detergents to clean. Simply wipe or spray clean with water.

SUSTAINABLE

Surfance™ products are not only environmentally benign, they are environmentally beneficial.

- Water soluble
- Biodegradable
- Improve Air Quality

EFFICIENT

Surfance™ reduces labor by up to 80% and cuts material costs by up to 60% for maintenance and restoration.

- Ready to use
- Long lasting
- Eliminates masking and stripping
- Less product to store

SAFE

Surfance™ products are non-hazardous and do not require personal protective equipment (PPE).

- Hospital grade
- Fragrance free
- Contain No VOCs
- Non-caustic

1 GALLON COVERS 1500 – 2500 SF

Surfance™ products penetrate and fill cracks at the molecular level. Surfaces are left smooth, making it difficult for contaminants, oxidizers, liquids, bacteria and mold to adhere. In addition, self-cleaning reduces frequency and effort of routine maintenance after the first application.

SURFANCE TREATMENT & CLEANING PRODUCTS

| | | |
|--------------------------|---------------------|---|
| Metal Treatment | SURFANCE MT | Seals, hardens, and protects white and yellow metal surfaces. Eliminates need for lacquer. |
| Glass Treatment | SURFANCE GT | Bonds to glass to minimize abrasion particulate/soil adherence; self-cleaning on vertical glass. |
| All Purpose Treatment | SURFANCE AT | Protects metal, plastics, wood, glass, and polished/honed stone from soil, corrosion, oxidation and pollutants. |
| Polished Stone Treatment | SURFANCE SP | Hardens polished stone, and protects surfaces from soil, corrosion, oxidation, stains and pollutants. |
| Floor Treatment* | SURFANCE FT* | Long lasting non-slip treatment; formulated for high traffic areas. Overcoating eliminates need for stripping. |
| Concrete Floor Treatment | SURFANCE FL1 | Concrete densifier, sealer, and water repellent and hardener. Substitutes for diamond polishing. |
| All Purpose Cleaner | SURFANCE AC | Removes soil and mineral deposits from cement, vinyl tile, rubber, terrazzo, stone, ceramic, and masonry. |
| Low PH Masonry Cleaner | SURFANCE LP | Removes rust, mill scale, calcium, and lime from metal, stone, and masonry. |
| Industrial Stripper | SURFANCE IS | Strips waxes from floors, rubber, vinyl, terrazzo, metal, wood and tile. |
| Degreaser | SURFANCE D | Removes grease, waxes, food residues, carbon, inks and dyes from metal, masonry, tile, plastic, and rubber. |
